### *About the event*

Under a high level of scrutiny from Luxembourg tax authorities, multi-national groups with domestic or cross-border transactions, involving a Luxembourg company, should ensure that such an interaction occurs at an arm's length price. We, at Grant Thornton, would like an opportunity to enable you to adapt and adopt a consistent transfer pricing approach.

### *Content*

- New Luxembourg transfer pricing legislation
- Identification of intra-group domestic or cross-border transactions
- Substance and equity-at-risk requirement
- Country-by-Country Reporting and Notification

### *Our Experts*

Our experts, Jean-Michel Hamelle and Jean-Nicolas Bourtembourg, have been focused on all aspects of international tax and transfer pricing, especially on business restructurings, tax planning, tax rulings and providing support in tax related investigations.
